

Enterprise Intelligence Assessment Report

Course: Threat Intelligence and Vulnerability Assessment

Name: Okirie Chukwumeniem Faith

Group: 3

Institution: NIIT

Date: 5th April 2026

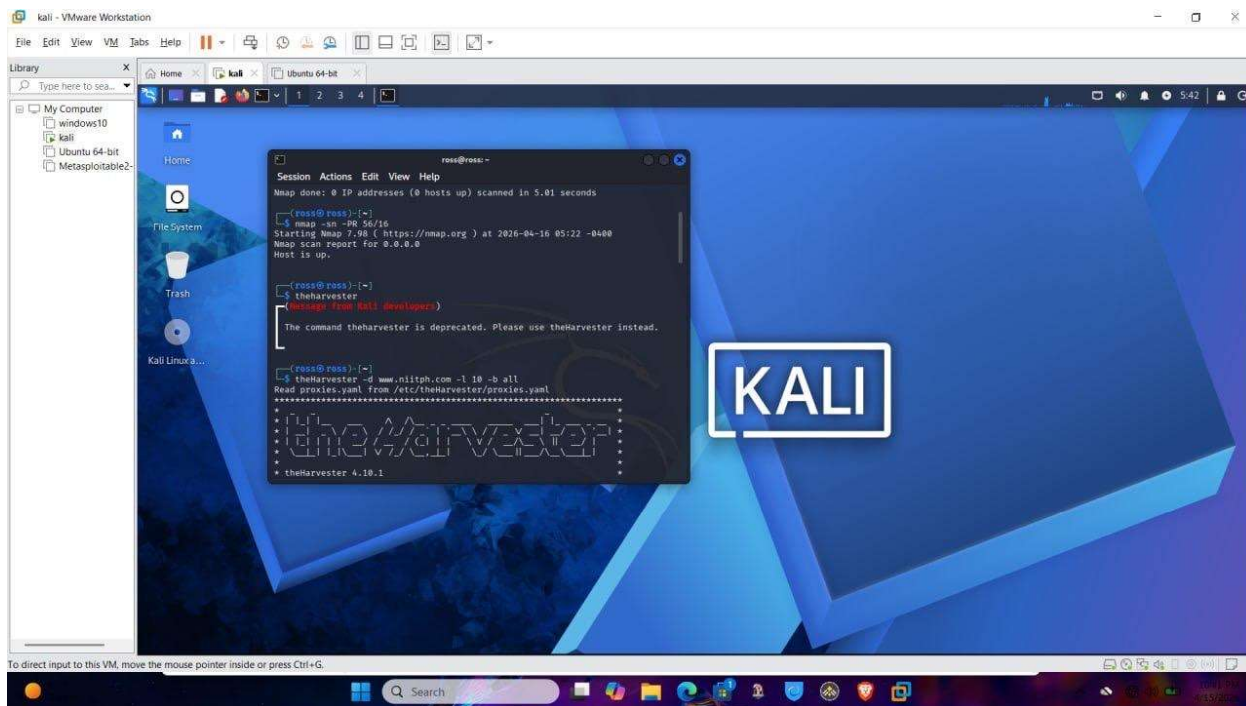

Enterprise Intelligence Assessment - NIIT Port Harcourt

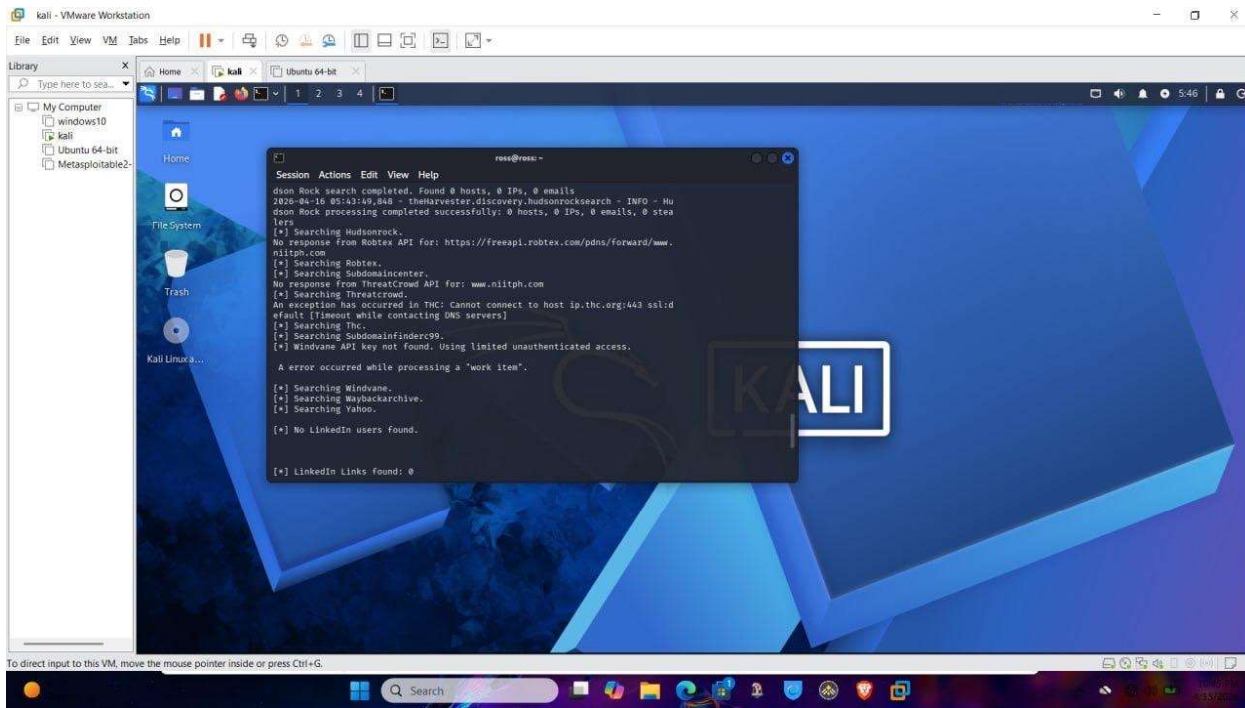

Objective

This project evaluates the organization's exposure by analyzing publicly available information, identifying human and technical attack surfaces, and correlating findings into actionable intelligence. The goal is to determine what an attacker could discover and exploit before a breach occurs.

Scope & Methodology

This assessment was conducted using open-source intelligence (OSINT) techniques and passive reconnaissance methods. Methods used include search engine analysis, social media profiling, and infrastructure reconnaissance.

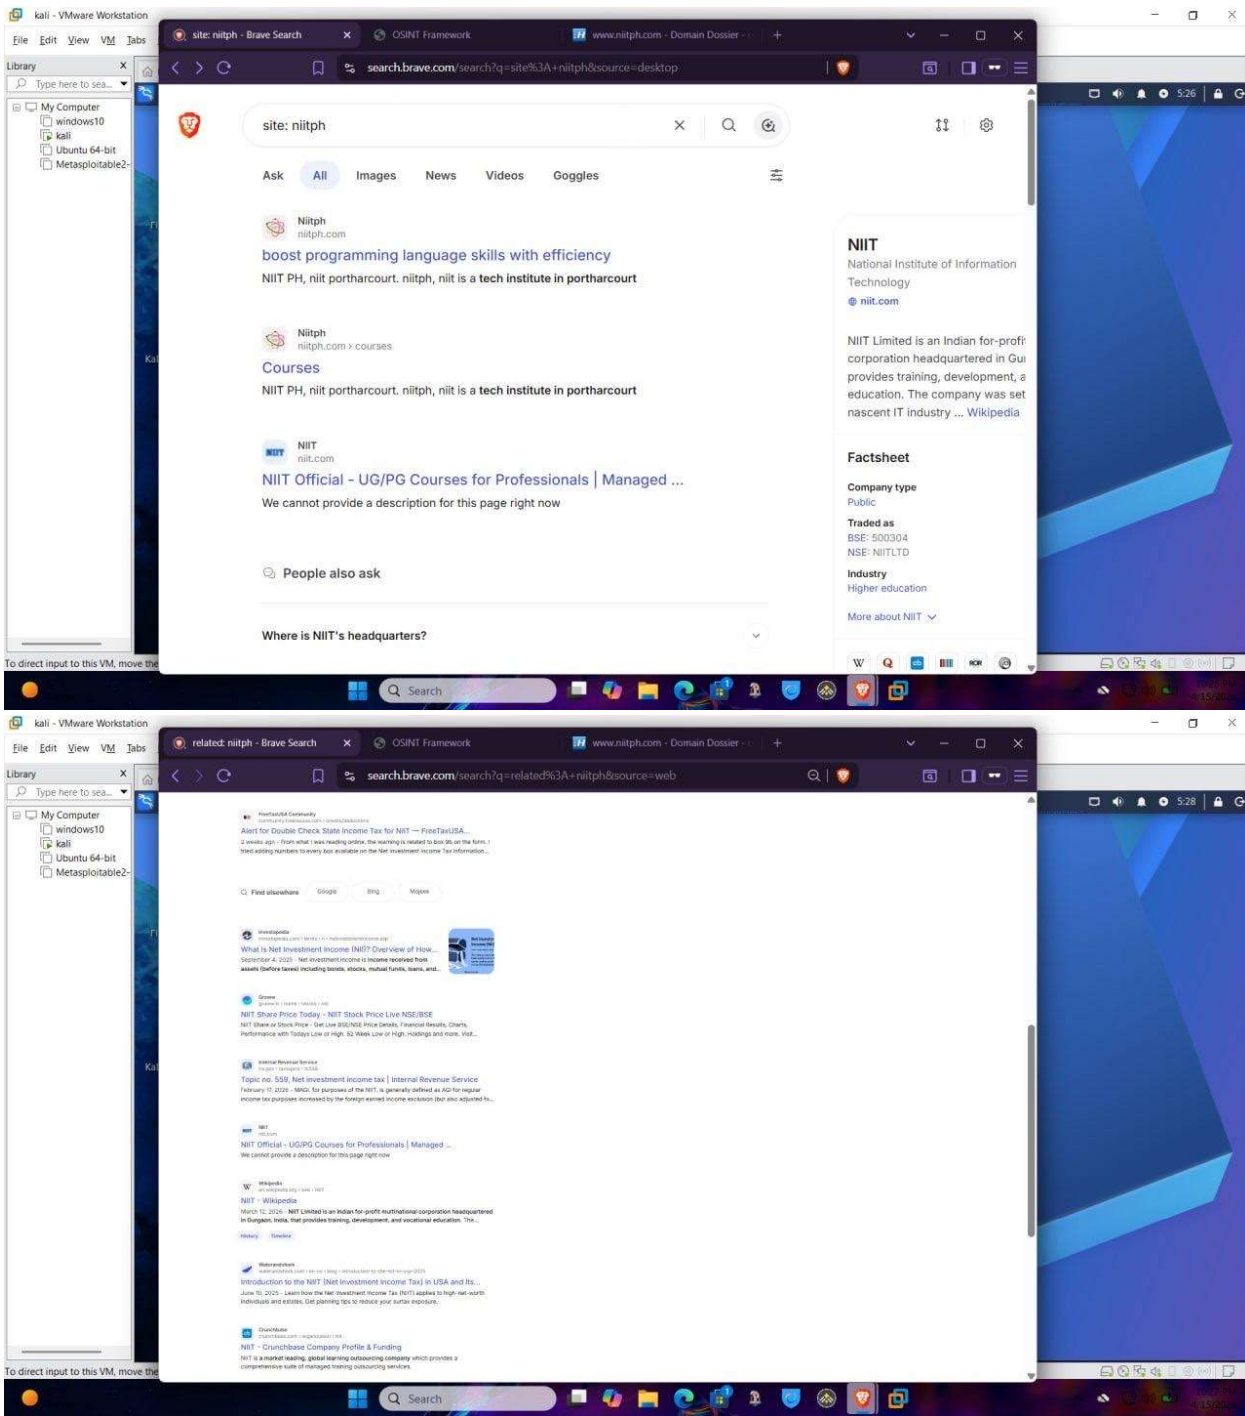

1. Exposure Identification

1.1 Organizational Information

- Company: NIIT Port Harcourt (Dell and Bell Nigeria Limited)
- Locations: Port Harcourt, Nigeria
- Contact: niitportharcourtenquiries@gmail.com, +234-915-311-0525

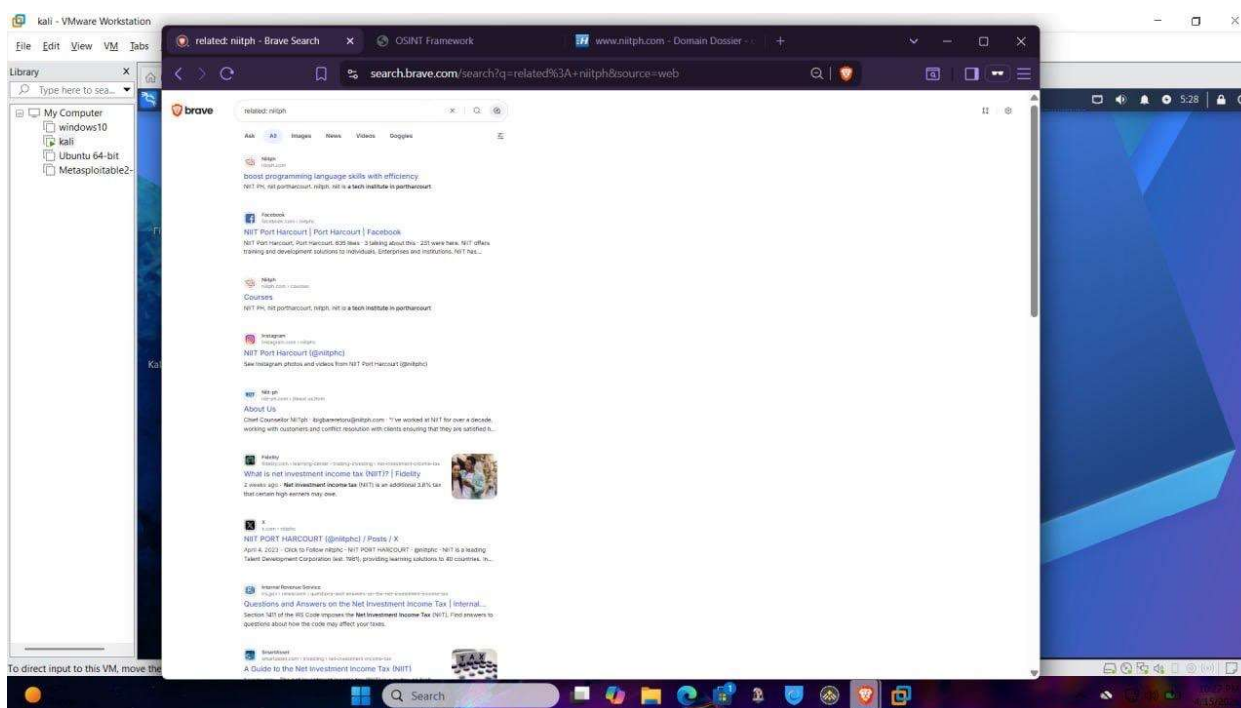

1.2 Employee Exposure

- Names: Ibigbari Eretoru (Chief Counsellor), Dr. Martha Ozohu Musa
- Email Pattern: firstname + surname initials @niitph.com

Enquiries Email	niitportharcourtenquiries@gmail.com
Staff Email (Named)	ibigbareretoru@niitph.com (Chief Counsellor)
Support Email	support@niitph.com (via Instagram)

Phone Number 1	+234-915-311-0525
Phone Number 2	+2340-806-962-5113
Phone Number 3	08107076917 (via Instagram)
SpiderFoot Discovery	steve@binarypool.com (indexed against niitph.com domain)
Staff Member Named	Ibigbari Eretoru — Chief Counsellor, NIIT Port Harcourt
Operator Entity	Dell and Bell Nigeria Limited (Rivers State)

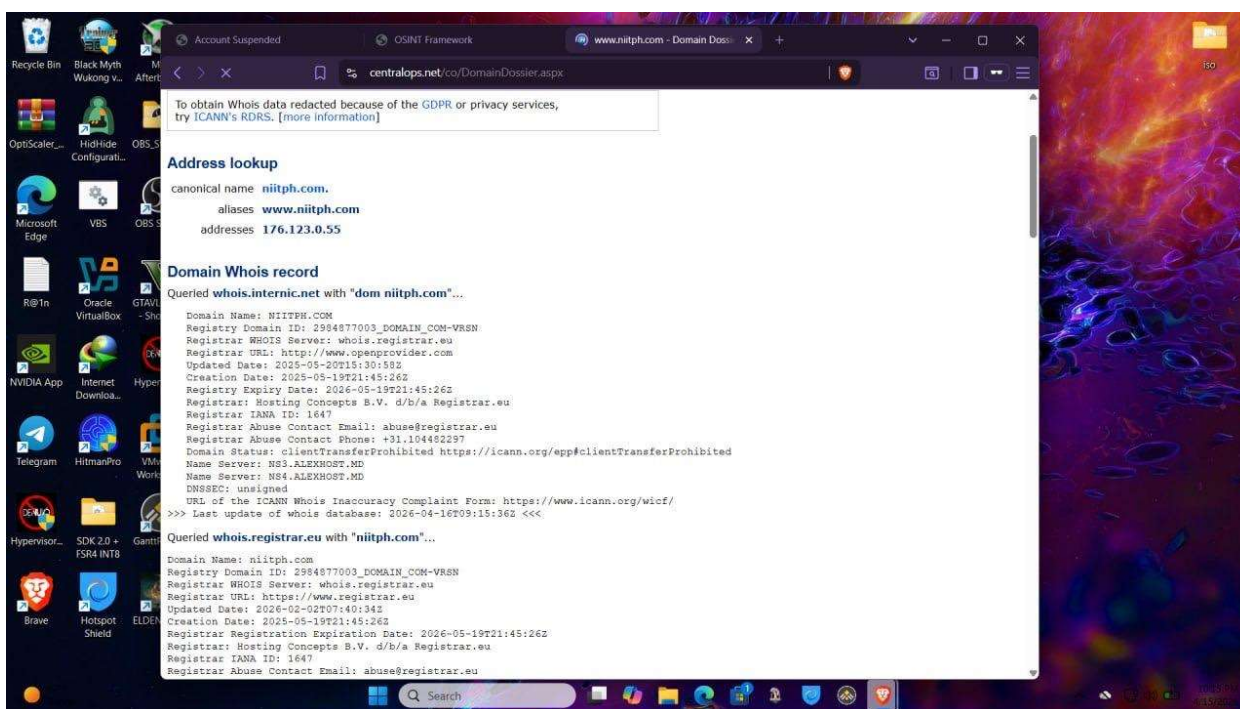

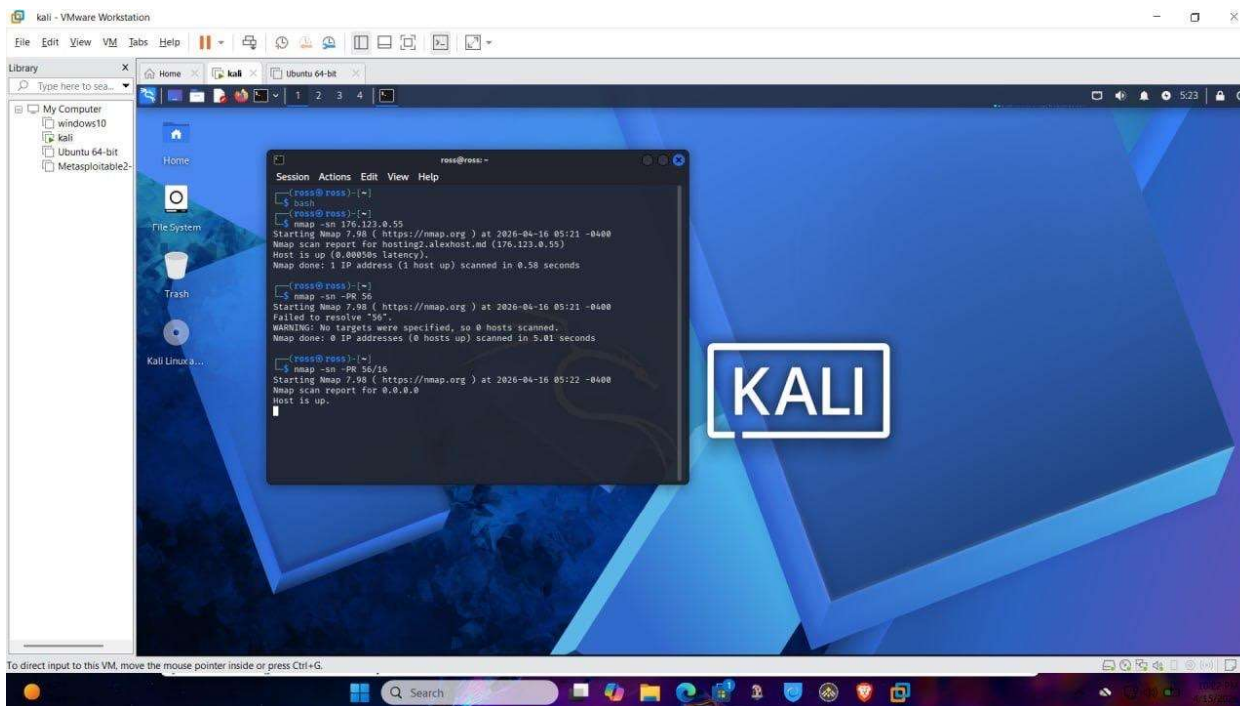

2. Human Attack Surface

Employee visibility combined with predictable email formats creates ideal conditions for social engineering and BEC attacks.

3. Infrastructure Accessibility

- Primary IP: 176.123.0.55
- Vulnerability: Login portal /encore/auth exposed without SSL.

Intelligence Correlation

Correlation of LinkedIn names and email patterns allows for targeted phishing against administrative personnel.

5. Intelligence Assessment

The organization presents a MODERATE-TO-HIGH threat exposure profile.

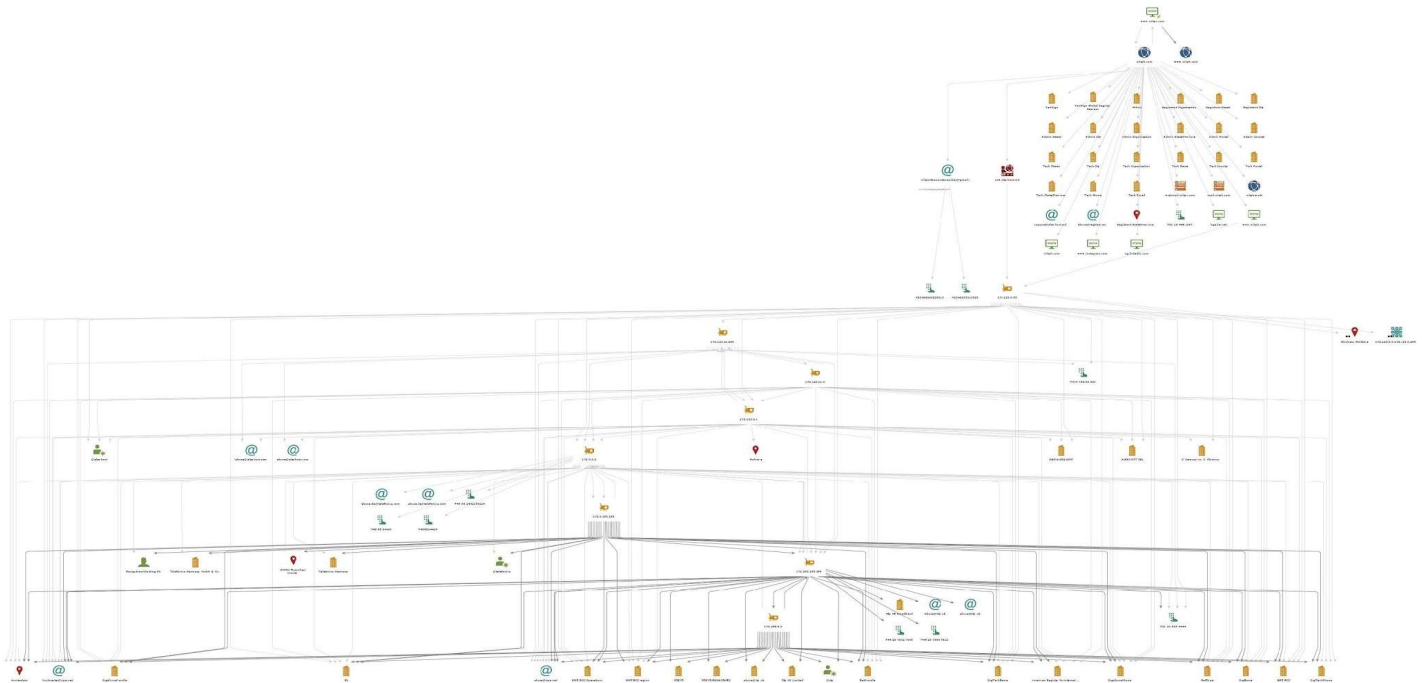

6. Recommendations

1. Enable SSL/TLS (HTTPS) immediately.
2. Enforce MFA.
3. Conduct phishing awareness training.

Appendices

Appendix A - Tools Used

- Kali Linux (theHarvester, Nmap)
- SpiderFoot & Maltego
- Google Dorking

Appendix B - Raw Data

Domains: niitph.com, niitph.work

IP: 176.123.0.55

Appendix C - References

Public sources used:

- Google/Brave Search
- WHOIS/DNS Records
- Social Media (LinkedIn/Instagram)
- Wayback Machine

Appendix D: Discovered snapshot containing information on Dr Martha Ozohu Musa

This assessment confirms that while no active information on Dr Martha Ozohu Musa is live on Wigweunibersity.edu.ng, there was indeed a time when Wigweunibersity.edu.ng had her details on their site and further snapshot indicates that they took it down without proper communication towards her.

I'm Dr. Martha Ozohu Musa, a zealous academic and researcher with a deep passion for Cybersecurity, Internet of things, and Artificial Intelligence. A Senior Lecturer and Acting Head of Department, Cybersecurity, University of Port Harcourt, holding a PhD Degree in Computer Science, my research and teaching interests revolve around Cybersecurity, Artificial Intelligence and Computer Science, where I have published several papers in learned journals and have also had Conference presentations and have also been a guest speaker at Conferences.

With a strong commitment to fostering intellectual curiosity and a track record of leadership and mentoring of students in my chosen field, I am dedicated to advancing knowledge and research in my chosen field and inspiring the next generation of scholars.
